An Overview of current and Impending Regulations Affecting the Construction Industry

Wednesday and Thursday, April 14 & 15, 2:00-4:00 PM

Presenters:

- Owens A. McCullough, P.E. – Vice President of Engineering and Project Development, Sebago Technics
- Joseph M. McLean, P.E. – Senior Project Engineer, Sebago Technics

The Seminar will focus on current and proposed regulations and issues involving the Industrial Multi-Sector Permit and Maine Construction General Permit programs. We will also review proposed changes to the Permit-By Rule Stream Crossing regulations. Lastly, we will cover the Maine Department of Environmental Protections Third Party Inspections program including proposed changes and how it may affect contractors and owners.

Gravel Pit & Quarry Compliance Workshop

Wednesday, April 14, 1:00 – 3:00 PM

The Maine Aggregate Association is offering an Environmental and Safety Compliance Workshop for owners and operators of gravel pits and quarries. This workshop will explain Maine Department of Environmental Protection regulations and performance standards for operation of gravel pits & quarries in Maine. Topics will also include:

- Air Emission Regulations for Rock Crushers, Asphalt & Concrete Bath Plants
- Blasting Standards
- Wetlands, Wildlife Habitat & Vernal Pool Protections
- Stormwater Management, and
- MSHA & Safety Compliance

Presentations are by representatives of MAA member companies experienced with gravel & quarry operations and regulations.

All gravel pit & quarry operators and owners are invited.

There is no cost for this workshop.
