8th Annual Spring Paving Seminar

Wednesday and Thursday

NEW LOCATION IN 2011: We are delighted to join forces with the Maine Chapter National Association of Women in Construction this year at Construction Expo of Maine. That means more cutting edge training, the opportunity to see the paving industry newest tools and equipment and new advances across the entire construction industry.

NEW THIS YEAR: We'll go outside on Day 2 for a hands-on demonstration.

LEARN THE LATEST ABOUT: Material Processing, Milling and Recycling, Quality Paving, and Quality Compaction.

Whether you're new to the paving industry or a seasoned professional, this is an excellent opportunity to refresh and broaden your understanding of the asphalt production process. Anyone involved in the construction and paving of roads, parking lots and driveways will benefit from attending this seminar.

REGISTER NOW! www.maine-apa.org

Construction Insurance Losses: Avoid the Common Pitfalls

Sponsored by Central Maine NAIC

Presented by Patriot Insurance Company

Thursday, April 14, 1:00 - 3:00 PM

- Fleet Safety and Defensive Driving
- Gravel Pit Liability Issues
- Construction Site Security and Jobsite Theft

Emissions: Right technologies. Right now.

Wednesday, April 13, 3:00 - 5:00

Sponsors are the Maine Aggregate Association and Nortrax. Presenter will be Brian Carr from Nortrax Corporate Headquarters, Tampa.

Emissions compliance is becoming a major part of your working life. Strict state air quality regulations have also become more prevalent, making life even more complicated for the heavy equipment owner. John Deere is armed with a suite of solutions tailored to meet and exceed local emissions requirements. This seminar will provide you with important information on engine emissions and resources.

Lubrication of Heavy Equipment and Biodegradable Lubricants

Wednesday, April 13, 3:00—5:00 PM

Sponsored by Genalco, Inc.

Presented by Jim Zappulla from Lubriplate Lubricants Company.
